

KGIS 2010

KOREA GOLF INDUSTRY SHOW 2010

January 27 ~ 29, 2010 KINTEX

Hosted by

Korea Turfgrass Research Institute
under Korea Golf course Business Association

INVITATION

We are inviting you to the 2010 Korea Golf Industry Show and International Seminar which is going to be held at KINTEX in Korea from January 27-29, 2010.

The Korea Golf Industry Show(KGIS) would be a great opportunity to take a look at the present and future of golf course management equipment and materials as well as management technologies in Korea and abroad. The Show has grown into Asia's largest international golf industry show, matching the Golf Industry Show of the world's largest golf market, USA.

At this show, we are preparing an international seminar with the relevant scholars from four countries-Korea, USA, Japan, and China. It will provide the latest knowledge and information about golf course management systems and eco-friendly management technologies. We believe that this seminar would be a venue for extensive exchange with other participant from the world.

About

Korea Turfgrass Research Institute (KTRI)

KTRI, which is hosting the Korea Golf Industry Show, is the attached institute of the Korea Golf Course Business Association.

KTRI boasts of outstanding technologies and capabilities. As the only institute that researches on grass and trees in Korea. KTRI equipped with cutting-edge research systems and manned by the experts on course management (five Ph.D. and six master's degree holders).

KTRI conducts research on the scientific and efficient golf course management for the association's member. Specifically, KTRI provides consultancy and education services on golf course management, such as an analysis of soil and water resources in golf courses, and also conducting a relevant R&D for the provision of related technical data.
